OPIX
INSTRUMENTS

ST · PROCEDURE SETS

Complete instrument sets

20 procedure trays · 1259 instruments across the range

Every set is assembled from the Opix catalog, kitted in a perforated sterilization container with silicone mat and contents card, and quoted as a single unit. Each list is a starting point: lines can be added, removed or exchanged for another pattern from the same catalog section, and all sets are available in tungsten-carbide, economy and private-label configurations.
